Hi Laurel,

The transcript and the comment from the WY Outdoor Council have been added in draft format to the docket. Do you want to review these or is OK for me to post them?

Hi - Attached is a pdf version of the transcript. Our statement of work asks for more as follows:

One electronic diskette shall be provided with the transcript files in both searchable Adobe PDF and Microsoft Word formats to allow for future compilation and sorting of individual remarks. The original and one hard copy of the transcript shall also be provided.

Do you recall if you got more than the electronic version last year? It doesn't seem court reporters have the capability of easily creating a Word file – I never got one for the ND hearings either. I can follow up with contracting officer and the court reporter if we want to the hard copies and/or Word document to see what can be done. I suppose it would be good to get at least one hard copy for the paper docket instead of printing it ourselves. Let me know your thoughts.
